

In-reach Agreement

If you decide that you would like to access EPIC-Norfolk data remotely via In-Reach, please read the following statements carefully and return the signed form back to the EPIC-Norfolk study co-ordinator epic-norfolk@mrc-epid.cam.ac.uk

- I agree that In-reach is sufficient for my needs and understand that the data remains on the MRC-epid network.
- I understand that data must be accessed on a password protected computer.
- I agree data accessed via In-reach must be used solely for the purpose of the agreed research project.
- I will not share my password or login details with any other person.
- I understand that data **must not** leave the In-reach folder without approval from the EPIC-Norfolk study team, not even summary statistics, stata scripts or text documents.
- I will seek approval from the EPIC-Norfolk study team for release of summary statistics.
- I understand once analysis is concluded, all data will be removed by a member of the EPIC-Norfolk study team.
- I understand the software packages available to me for analysis on the system are R and Stata. If these software packages are not suitable for my analysis needs, I understand that I will need a Data Sharing Agreement in place, in order for me to have a copy of the data.
